

Step 1: We are programming our dimensional search website using PHP. We are creating a very basic user interface, that will look something like below. It will have its own unique URL for your website. Something like www.portabracecasefinder.com/nefal

PHP Site Front End Example

The screenshot shows a web browser window with the URL <https://www.portabracecasefinder.com/nefal>. The page has a header 'PortaBrace case finder'. Below it is a form titled 'Enter minimum dimension requirements'. The form contains three input fields for 'L', 'W', and 'H'. To the left of these fields are radio buttons for 'Inches' (selected) and 'Centimeters'. Below the input fields is a 'Submit' button. To the right of the form is an image of a black PortaBrace case with dimension lines indicating L (length), W (width), and H (height).

Step 2: The Nefal web team will create an I-frame around the URL for your case finder ([portabracecasefinder.com/nefal](http://www.portabracecasefinder.com/nefal)), and give this page its own unique URL on the Nefal.tv/de site, for example... www.nefal.tv/de/portabracecasefinder. This way the customer will never leave the Nefal.tv website, even though we will be maintaining the database for you.

The screenshot shows the Nefal.tv website. The top navigation bar includes payment methods (Amazon, PayPal, VISA, etc.) and shipping options (Schneller Versand, etc.). The main content area features the 'PortaBrace case finder' form, which is identical to the one in the first screenshot. The form is embedded within an I-frame on the Nefal.tv website.

PHP Site Back End (database) Example

Item	L	W	H	URL
CAR-2CAM	14	8	9	https://www.nefal.tv/de/porta-brace-car-2cam/
CAR-3CAM	17	8	9	https://www.nefal.tv/de/porta-brace-car-3cam/
DVO-3R	20	9	10	https://www.nefal.tv/de/porta-brace-dvo-3r/
WPC-1ORB	21	10	10	https://www.nefal.tv/de/porta-brace-wpc-1orb/

Item	L	W	H	URL
CAR-2CAM	14	8	9	https://www.nefal.tv/de/porta-brace-car-2cam/
CAR-3CAM	17	8	9	https://www.nefal.tv/de/porta-brace-car-3cam/
DVO-3R	20	9	10	https://www.nefal.tv/de/porta-brace-dvo-3r/
WPC-1ORB	21	10	10	https://www.nefal.tv/de/porta-brace-wpc-1orb/

Step 3: When a customer on the Nefal.tv website enters dimensions for the case that he needs, the website will return a list of cases that fit the dimensions entered. We will start with the case that most closely fits and return all larger cases in ascending order (closest fit > largest case that still fits). Any case that is smaller than the entered dimensions, will not be shown.

PortaBrace case finder

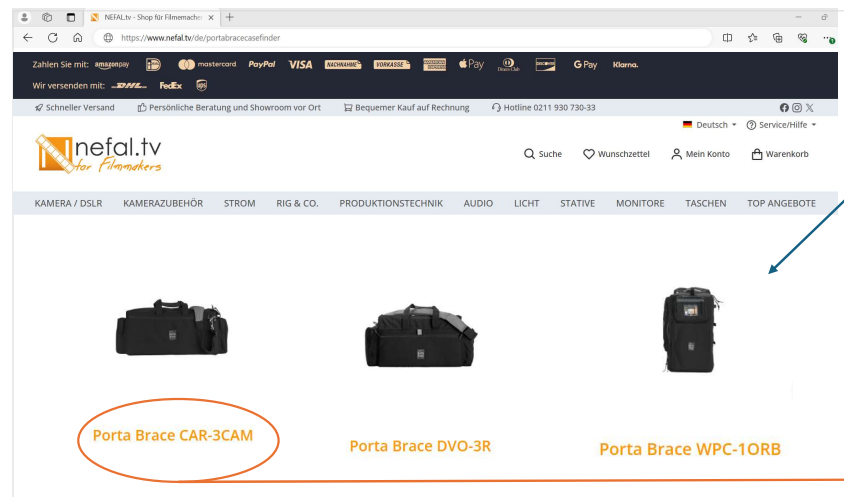

Enter minimum dimension requirements

L: 17 W: 8 H: 9

Submit

Item	L	W	H	URL
CAR-2CAM	14	8	9	https://www.nefal.tv/de/porta-brace-car-2cam/
CAR-3CAM	17	8	9	https://www.nefal.tv/de/porta-brace-car-3cam/
DVO-3R	20	9	10	https://www.nefal.tv/de/porta-brace-dvo-3r/
WPC-1ORB	21	10	10	https://www.nefal.tv/de/porta-brace-wpc-1orb/

Step 4: Search results are displayed, based on the dimensions entered. Customer does not leave Nefal web domain.

Item	L	W	H	URL
CAR-2CAM	14	8	9	https://www.nefal.tv/de/porta-brace-car-2cam/
CAR-3CAM	17	8	9	https://www.nefal.tv/de/porta-brace-car-3cam/
DVO-3R	20	9	10	https://www.nefal.tv/de/porta-brace-dvo-3r/
WPC-1ORB	21	10	10	https://www.nefal.tv/de/porta-brace-wpc-1orb/

Step 5: Customer clicks on desired result, customer stays on Nefal web domain.
